# My Fantastic Beast & Where to Find It

Newt Scamander is a wizard, but not just any wizard. He has spent the majority of his life discovering, unearthing, and documenting fantastic beasts from around the world, compiling them into one book for future young, inquisitive witches and wizards to read. But there are many more out there yet to be discovered.

Today, you become his lab assistant and field expert. You have been tasked with recording your own recently discovered fantastic beast!

*But don't be too hasty! This is for the good of all wizard kind after all, so certain details must be taken into consideration.*

Name \_\_\_\_\_

- 1) *Your fantastic beast must not already exist (otherwise, what is the point?)*
- 2) *You must tell us where your beast lives (“Where to Find Them”)*
- 3) *All beasts survive because of several things. I believe muggle call them “adaptations”? Those features must be included too. (It’s an educational book remember. Must have those facts and data!)*
- 4) *You need proof. (Perhaps a picture or drawing? Ask your teacher. I am sure she has some good ideas for how to do this!)*
- 5) *Due dates are important to Mr. Scamander and he is always on a time crunch. (Wizards run inherently late!) So be sure and get everything turned in to him on time!*

Name \_\_\_\_\_

Of course we wouldn't dream of asking you for such a huge favor without some sort of compensation. Mr. Scamander would offer to pay you, but I don't believe knuts and galleons translate very well over seas. So He proposes something more.... academic.

### GRADING

<i>Fantastic Beast name and description</i>	<i>25 pts</i>
<i>Fantastic Beasts adaptations and Habitat</i>	<i>25 pts</i>
<i>Proof of fantastic beast (drawing / art)</i>	<i>30 pts</i>
<i>Quality / Neatness</i>	<i>10 pts</i>
